Classroom parents can help me most by...

Know that I love your child and will protect your child to the best of my ability. I ask for your support, kindness, respect, and professionalism when communicating your concerns whether it be in person, email, or Remind I am human and have a heart and make mistakes. I am here for your child and for you!

I want my classroom parents to know...

I am dedicated to educating each child and meeting them at their current level I am caring and passionate about creating a classroom of kindness and respect for all I want the students to feel safe, comfortable and know they can come to me if there is an issue they are having or have questions I always keep in mind, "How would I want my children to be taught, spoken to, and helped?" I follow that everyday. If needed, I will call a parent during the day and ask for their support if their child is struggling during instructional time. I will also send a note or call to celebrate success!
